Establishment of the Nevada Tribal Health Authority Council

Codified under NRS 233A.410, the Tribal Health Authority Council (Council) empowers Nevada's federally recognized Tribes with a direct voice in state healthcare policy. The Council advises state lawmakers to address severe health disparities by:

- *Initiating at least two Bill Draft Requests (BDRs) per legislative session*
- *Collaborating with the Nevada Department of Human Services and the Nevada Health Authority to reinvest funds into Tribal health services*
- *Empowering Tribal governments to build better health outcomes for Native American communities*

Voting Members: *The director (or their designated representative) of each health care facility located in Nevada (14) that is operated by a Tribal Government opting to participate. Currently, eight (8) Tribal Health Centers/Clinics have officially committed to the mission of the Council.*

Non-Voting Members: *One representative from the Phoenix regional Indian Health Service office that oversees Nevada, plus appointed liaisons from Nevada Department of Human Services and Nevada Health Authority, and Urban Indian Health organizations whose functions relate to healthcare.*

Please join me in expressing our deepest respect and gratitude to our five major Indigenous groups; the Northern Paiute, the Shoshone, the Southern Paiute, the Washoe and the Mojave — not just the original caretakers of the land we now call Nevada — but for their resiliency and enduring stewardship and protection of our shared lands and waterways. Today, the Department of Native American Affairs (DNAA) reaffirms its commitment to improve the quality of life for our 28 Indigenous Nations, Bands, Colonies, and the 62,000-plus Urban Indians who choose to make Nevada their current home.”
